

# *Easier to ride —*

than any Machine with a complicated engine. Motor Cycles with VILLIERS TWO-STROKE engines cost less to buy and are much cheaper to run. They are light in weight and very simple to control.

These Machines have obtained the same Awards in open Competition as other Motor Cycles costing double the price.

There are no "freak" VILLIERS engines made, nor professional riders employed. Every VILLIERS success is obtained on a standard engine.

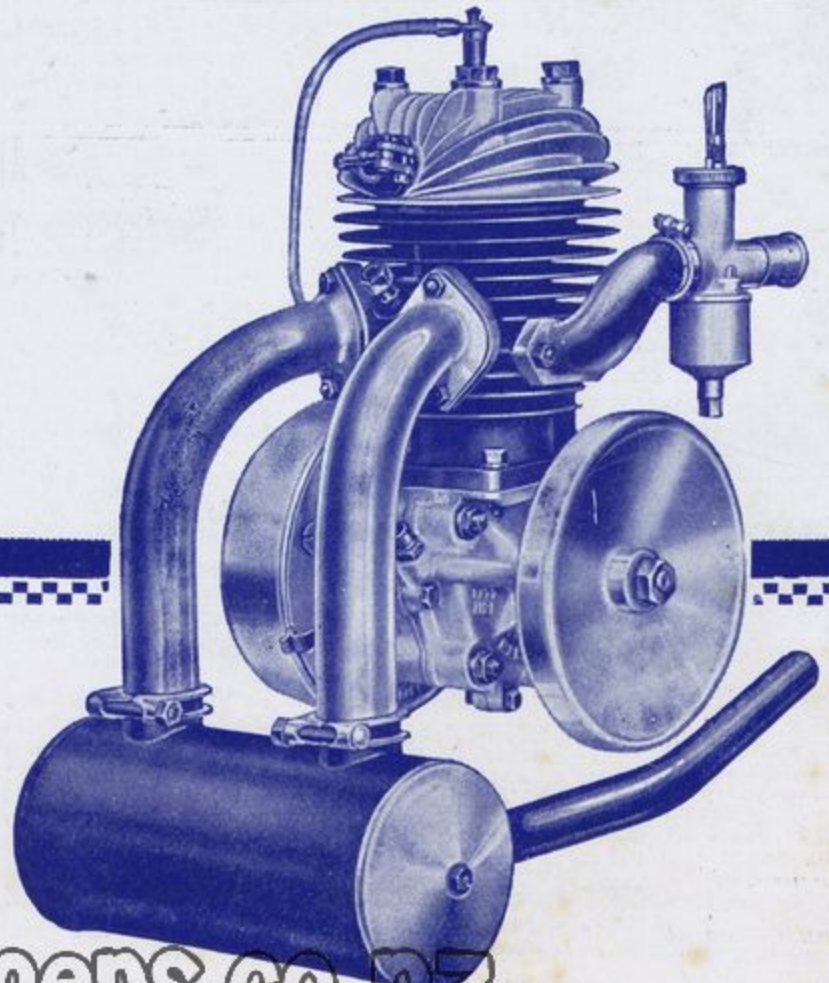

*—and safer!*

Illustrated Booklet send free upon receipt of a postcard.
