## IMPORTANT

**TERMS CHARGES.**—The paying of a further £5 in addition to the first instalment listed entitles the client to a reduction of £1 off the terms charge; thus, should a client pay £20 down and £4/10/- monthly on a TS "DOUGLAS," the terms price will automatically alter to £68, whilst should he pay £25 down and £4/10/- monthly, the terms price will automatically alter to £67 plus, of course, any extras such as Lamp Set, etc. If the client by paying larger monthly payments than set out on the contract or by paying a lump sum should terminate the hire before the time allotted by contract, a corresponding rebate will be made in the amount charged for the terms accommodation; thus, a hirer who had undertaken to pay up for his motor cycle in twelve months will be credited one-quarter of the amount added to the terms accommodation should he actually pay up inside nine months, and so on.

OVERSIZE TYRES, full kit of tools and pump are standard equipment on all "DOUGLAS" Models.

### EXTRAS.

These prices apply only when the extra fitment is ordered with a new machine and fitted in place of any existing fitment.
