Notice.

We do not appoint agents for the sale on our behalf of our motorcycles or other goods, but we assign to Motorcycle Dealers areas in which we supply to such Dealers exclusively for re-sale in such areas. No such Dealer is authorised to transact any business, give any warranty, make any representation or incur any liability on our behalf.

Guarantee.

We give the following guarantee with our Motorcycles, Motorcycle Combinations and Sidecars, which is given in place of implied conditions, warranties and liabilities being in all cases excluded. Any statement, description, condition or representation contained in any catalogue, advertisement, leaflet or other publication, shall not be construed as enlarging, varying or overriding this guarantee. In the cases of machines which have been used for "hiring-out" or "racing" purposes, or from which the trade mark, name, or manufacturing number has been removed, no guarantee of any kind is given or is to be implied.

We guarantee, subject to the conditions mentioned below, that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, but this guarantee is to extend and be in force for three months only from date of purchase, and damages for which we make ourselves responsible under this guarantee are limited to the free supply of a new part in exchange for the part of the motor cycle, motor cycle combination and sidecar. We undertake, subject to the conditions mentioned below, to make good at any time within three months any defects in these respects. As the motor cycles, motor cycle combinations and sidecars are easily liable to derangement by neglect or misuse, this guarantee does not apply to defects caused by wear and tear, misuse or neglect.

The term "misuse" shall include, amongst others, the following acts:—

1. The attaching of a sidecar to a motor cycle in such a manner as to cause damage, or calculated to render the later unsafe when ridden.
2. The use of a motor cycle, or a motor cycle and sidecar combined, when carrying more persons, or a greater weight than that for which the machine was designed by the manufacturers.
3. The attaching of a sidecar to motor cycle by any form of attachment not provided or supplied by the manufacturers, or to a motor cycle which is not designed for such use.

Conditions of Guarantee.

If a defective part should be found in our motor cycles, motor cycle combinations, or sidecars, or in any part supplied by way of exchange before referred to, it must be sent to us CARRIAGE PAID, and accompanied by an intimation from the Owner that he desires to have it repaired or exchanged free of charge under our guarantee, and he must also furnish us at the same time with the number of the machine, the date of the purchase, or the date when the alleged defective part was exchanged, as the case may be.

Failing compliance with the above, such articles will lie here AT THE RISK OF THE OWNER, and this guarantee, warranty, or condition shall not be enforceable.

We do not guarantee specialities, such as tyres, saddles, chain, lamps, etc., or any component parts supplied to the order of the Purchaser differing from our standard specification supplied with our motor cycles, motor cycle combinations, sidecars or otherwise.
