BIRMINGHAM SHOWROOMS:

274a, BROAD STREET.

Telephone No. 3532 Midland.

BARNSTORMERS.CO.NZ
*Contractors to H.M. Government, the French and Belgian Governments,
and the former Russian Imperial Military Authorities.*

All prices of Spare and Replacement Parts are subject to revision or modification, at our discretion, without notice.

Our terms are STRICTLY NET CASH WITH ORDER, or cash on receipt of PRO-FORMA INVOICE. Repairs and sundries items cannot be booked. Prices do not include cost of carriage or postage.

Any part or complete motor cycle sent for repair should be consigned CARRIAGE PAID and the sender's name and address should be given in full on the address tally. Parts sent to us carriage forward are liable to be refused, and to lie with the carriers at sender's risk and expense.

Full instructions regarding the necessary repairs to be done, with advice as to the mode of despatch of the machine (or part), should be posted the same day.

When forwarding motor cycles for repair it is advisable to remove all accessories and easily detached fittings, such as lamp, horn, toolbags, etc. Besides facilitating the work of repair, it will also prevent any loss during transit.

Order all parts by the name of the article and the NUMBER PRECEDING IT, also state the number of the engine or machine for which they are intended. The engine number will be found stamped on the crank case and the machine number on the lug underneath the saddle, or on the front down tube lug.

GUARANTEE

We respectfully refer customers to the terms of our guarantee which appears in our current Motor Cycle Catalogue.

When forwarding a complete Motor Cycle, Engine, Carburettor or Magneto with the request that we overhaul the same, we understand by the term "Overhaul" that it is to be entirely dismantled, thoroughly renovated, any worn parts renewed, and put in perfect working order. In case a customer desires only certain parts attended to, full instructions should be given us to that effect, otherwise the cost may be in excess of that anticipated.

ESTIMATES AND QUOTATIONS

When customers send complete Motor Cycles or parts thereof to us for repairs, we are always prepared to furnish estimates before proceeding with the necessary work. At the same time, it must be distinctly understood that we can only give approximate quotations. Frequently, when the actual work is in progress, it is found necessary to replace parts other than those specified in the estimate, as we make a practice of including in such estimates only those items and parts which at the time we consider really essential to put the machine (or parts) in a thoroughly satisfactory condition.

If any estimate prepared in this way is not accepted, we reserve the right to make a nominal charge for taking down and re-assembling any parts necessary in preparing it.

We cannot hold ourselves responsible for loss of, or damage to, any parts lying at our works for repairs, unless instructions to proceed with same are given within twenty-one days of our estimate for the said repairs having been rendered.

All acetylene-welded repairs to crank-cases and other aluminium parts are carried out with extreme care, but we cannot give any guarantee with, or accept responsibility for, any parts so treated.

MOTOR CYCLE GUARANTEE.

Reprinted from our current Motor Cycle Catalogue.

We give the following Guarantee with our motor cycles instead of the guarantee implied by statute, or otherwise, as to the quality or fitness of such machines for the purpose of motor cycling; any such implied guarantee being in all cases excluded. In the case of machines which have been used for "hiring out" purposes, or from which our trade mark or manufacturing number has been removed, no guarantee of any kind is given, or is to be implied.

WE GUARANTEE, subject to the conditions mentioned below, that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, but this guarantee is to extend and be in force for three months only from the date of purchase, and damages for which we make ourselves responsible under this guarantee are limited to the replacement of any part which may have proved defective, but not to the cost of any work involved in effecting such replacement. We undertake, subject to the conditions mentioned below, to make good at any time within three months any defects in these respects. As motor cycles are easily liable to derangement by neglect or misuse, this guarantee does not apply to defects caused by wear and tear, misuse or neglect.

The term "misuse" shall include amongst others the following acts:—

1. The attaching of a side-car to the motor cycle in such a manner as to cause damage, or calculated to render the latter unsafe when ridden.
2. The use of a motor cycle, or of a motor cycle and side-car combined, when carrying more persons or a greater weight than that for which the machine was designed by the manufacturers.

Any motor cycle sent to us to be plated, enamelled or repaired, **whether the repairs are required for the purpose of making good the defect before referred to or otherwise**, will be repaired upon the **following conditions**:—i.e., we guarantee that all precautions which are usual and reasonable have been taken by us to secure excellence of material and workmanship, such guarantee to extend and be in force for three months only from the time such work shall have been executed, and this guarantee is in lieu and in exclusion of any common law or statute warranty, and the damages recoverable are limited to the cost of any further work which may be necessary to amend and make good the work found to be defective.

This guarantee does not apply to the engines fitted to Models 351 and 352.

CONDITIONS OF GUARANTEE.

If a defective part should be found in our motor cycles **or in any part replaced**, it must be sent to us carriage paid, and accompanied by an intimation from the sender that he desires to have it repaired free of charge under our guarantee, and he must also furnish us at the same time with the number of the machine, the name of the agent from whom he purchased, and the date of the purchase, **or the date when the alleged defective part was replaced, as the case may be.**

Failing compliance with the above, no notice will be taken of anything which may arrive, but such articles will lie here at the risk of the senders, and this guarantee, and any implied guarantee, shall not be enforceable.

We guarantee only those machines which are bought either direct from us, or from one of our duly appointed agents, and under no other conditions.

We do not guarantee the specialities of other firms, such as Tyres, Saddles, Chains, Lamps, etc., or of any component part supplied with our motor cycles, or otherwise.

THE TERM "AGENT" is used in a complimentary sense only, and those firms whom we style our "agents" are not authorised to advertise, incur any debts or transact any business whatsoever on our account, other than the sale of goods which they may purchase from us; nor are they allowed to give any warranty or make any representation on our behalf other than those contained in the above Guarantee.
