Governments, and the former Russian Imperial  
Military Authorities.*

## ROYAL ENFIELD MOTOR CYCLES.

---

All prices of Spare and Replacement Parts are subject to revision or modification, at our discretion, without notice.

Our terms are STRICTLY NET CASH WITH ORDER, or cash on receipt of PRO-FORMA INVOICE. Repairs and sundries items cannot be booked. Prices do not include cost of carriage or postage.

Any part or complete motor cycle sent for repair should be consigned CARRIAGE PAID and the sender's name and address should be given in full on the address tally. Parts sent to us carriage forward are liable to be refused, and to lie with the carriers at sender's risk and expense.

Full instructions regarding the necessary repairs to be done, with advice as to the mode of despatch of the machine (or part), should be posted the same day.

When forwarding motor cycles for repair it is advisable to remove all accessories and easily detached fittings, such as lamp, horn, toolbags, etc. Besides facilitating the work of repair, it will also prevent any loss during transit.

Order all parts by the name of the article and the NUMBER PRECEDING IT, also state the number of the engine or machine for which they are intended. The engine number will be found stamped on the crank case and the machine number at the top of the front down tube.

### GUARANTEE.

We respectfully refer customers to the terms of our guarantee which appears on page 36 of this list.

When forwarding a complete Motor Cycle, Engine, Carburetter or Magneto with the request that we overhaul the same, we understand by the term "Overhaul" that it is to be entirely dismantled, thoroughly renovated, any worn parts renewed, and put in perfect working order. In case a customer desires only certain parts attended to, full instructions should be given us to that effect, otherwise the cost may be in excess of that anticipated.

### ESTIMATES AND QUOTATIONS.

When customers send complete Motor Cycles or parts thereof to us for repairs, we are always prepared to furnish estimates before proceeding with the necessary work. At the same time, it must be distinctly understood that we can only give approximate quotations. Frequently, when the actual work is in progress, it is found necessary to replace parts other than those specified in the estimate, as we make a practice of including in such estimates only those items and parts which at the time we consider really essential to put the machine (or parts) in a thoroughly satisfactory condition.

If any estimate prepared in this way is not accepted, we reserve the right to make a nominal charge for taking down and re-assembling any parts necessary in preparing it.

We cannot hold ourselves responsible for loss of, or damage to, any parts lying at our works for repairs, unless instructions to proceed with same are given within twenty-one days of our estimate for the said repairs having been rendered.

All acetylene-welded repairs to crank cases and other aluminium parts are carried out with extreme care, but we cannot give any guarantee with, or accept responsibility for, any parts so treated.

*We give the following Guarantee with our Motor Cycles, Motor Cycle Combinations and Sidecars, which is given in place of any implied conditions, warranties or liabilities whatsoever, statutory or otherwise, all such implied conditions, warranties and liabilities being in all cases excluded. Any statement, description, condition, or representation contained in any catalogue, advertisement, leaflet or other publication shall not be construed as enlarging, varying or over-riding this guarantee.*

In the case of machines (a) which have been used for " hiring out " purposes or (b) any motor cycle and/or sidecar used for any dirt track, cinder track, or grass track racing or competitions or any competition of any kind within an enclosure for which a charge is made for admission to take part in or view the competition or (c) machines from which the trade mark, name or manufacturing number has been removed, no guarantee of any kind is given or is to be implied.

**WE GUARANTEE**, subject to the conditions mentioned below, that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, but this guarantee is to extend and be in force for six months only from the date of purchase, and damages for which we make ourselves responsible under this guarantee are limited to the free supply of a new part in exchange for the part of the motor cycle, motor cycle combination or sidecar which may have proved defective. We do not undertake to replace or refix, or bear the cost of replacing or refixing, such new part in the motor cycle, motor cycle combination or sidecar. We undertake, subject to the conditions mentioned below, to make good at any time within six months any defects in these respects. As motor cycles, motor cycle combinations and sidecars are easily liable to derangement by neglect or misuse this guarantee does not apply to defects caused by wear and tear, misuse or neglect. The term " misuse " shall include amongst others the following acts :—

1. The attaching of a sidecar to the motor cycle in such a manner as to cause damage or calculated to render the latter unsafe when ridden.
2. The use of a motor cycle or of a motor cycle and sidecar combined, when carrying more persons or a greater weight than that for which the machine was designed by the manufacturers.
3. The attaching of a sidecar to a motor cycle by any form of attachment not provided or supplied by the manufacturers or to a motor cycle which is not designed for such use.

Any motor cycle or motor cycle combination or sidecar sent to us to be plated, enamelled or repaired will be repaired upon the following conditions, *i.e.*, we guarantee that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, such guarantee to extend and be in force for three months only from the time such work shall have been executed or until the expiration of the six months above referred to, and this guarantee is in lieu and in exclusion of any common law or statute warranty or condition, and the damages recoverable are limited to the cost of any further work which may be necessary to amend and make good the work found to be defective.

Models B, S and S2 are sold subject to the condition that they are not used with a sidecar.

## CONDITIONS OF GUARANTEE.

If a defective part should be found in our motor cycles, motor cycle combinations or sidecars, or in any part supplied by way of exchange before referred to, it must be sent to us CARRIAGE PAID, and accompanied by an intimation from the owner that he desires to have it repaired or exchanged free of charge under our guarantee, and he must also furnish us at the same time with the number of the machine, the date of the purchase, or the date when the alleged defective part was exchanged as the case may be.

Failing compliance with the above, such articles will lie here AT THE RISK OF THE OWNER, and this guarantee and any implied guarantee, warranty or condition shall not be enforceable.

We do not guarantee specialities such as tyres, saddles, chains, lamps, etc., or any component parts supplied to the order of the purchaser differing from standard specifications supplied with our motor cycles, motor cycle combinations, sidecars or otherwise.

## NOTICE.

We do not appoint agents for the sale on our behalf of our motor cycles or other goods, but we assign to motor cycle Dealers, areas in which we supply to such Dealers exclusively for re-sale in such areas. No such Dealer is authorised to transact any business, give any warranty, make any representation or incur any liability on our behalf.
